

Practical information

With spring, sunshine and mildness, everyone takes care of their shrubs, but let's remember that the

burning of green waste is prohibited from March 1 to Tuesday, October 1, 2024.

Let's also take care of our neighbours, and for a good understanding, let's choose the best time for **the work**:

- from Monday to Friday from 08:30 to 12:00 and from 14:30 to 19:00,
- Saturday from 9:00 a.m. to 12:00 p.m. and from 3:00 p.m. to 7:00 p.m.,
- Sundays and public holidays from 10:00 a.m. to 12:00 p.m.

Atlas of the Biodiversity of the Vallée de l'Homme.

The atlas was finalized in the summer of 2023 but the actions will continue over time. This project is a step forward in the knowledge of local biodiversity and its preservation. An inventory of all the existing literature on the animal and plant species of the territory was first carried out, then it was completed by field studies in 2022 on a number of taxa, namely: vascular flora, bats, day butterflies, orthoptera, odonates, amphibians, reptiles, birds.

This whole inventory resulted in the creation of 5 posters. The municipalities received those corresponding to the species and plants of their own territory. For Peyzac le Moustier, we had the satisfaction of seeing the richness of our territory when we received all the 5 posters. You can find this inventory on the Community of communes Vallée de l'Homme website, or come and consult it at the town hall.
