EVENTS - ASSOCIATIONS

As announced in the previous News Flash, the summer season has been rich in beautiful events. Weekly local market, “empty attic” and “dressing room” sales, local party, music, plant and seed swap, shared meals.

To conclude this beautiful festive year, the association is organizing, for the 4th edition, the **Christmas Market** on the square of the church of St Robert in Le Moustier. You will meet many exhibitors, craftsmen,

local producers. You are welcome to this friendly and colorful event.

TERRA AVENTURA

offers simple, fun, free outings to experience with family and friends. For example, the 2.5 km "Journey to the land of the Mousterian" route (about 1 to 2 hours) was once again a great success this year, with almost 7000 positive comments sent to the Montignac-Lascaux Tourist Office between January and September 2024.

MOUSTERIAN SITE

The site of Le Moustier, in the village of Le Moustier, is the eponymous site of the prehistoric period of the Mousterian. An explanatory panel is located near the area, but to better understand this important site, it is best to book a guided tour with the Font-de-Gaume Cave.

ENGAGED ACTIONS

An animal is not a Christmas gift!

During Christmas and New Year celebrations, we want to please our loved ones.

Some people are tempted to offer an animal (cat, dog, rodent, ferret...) as a Christmas gift. These animals, offered as gifts, are likely to end up as victims of abandonment in shelters. If you love animals, don't participate in this, that contributes to the saturation of shelters. They deserve more consideration.

Support the independent shelters and the National Confederation for the Defence of Animals who have been fighting for many years, relentlessly, against the animal as an object. In France, it is the law of 10 July 1976 on the protection of nature that is the basis of the animal protection policy.
